The PrecedingComponents member of the Preceding condition is marked as 0..*. However, if no preceding components are present, the Preceding condition loses any meaning beyond a basic condition. The member should be marked as 1..*, requiring at least one preceding component target be present if the Preceding condition is used.

#1 - 2010/04/26 15:02 - gbiggs

This applies to the RTSProfile specification.

#2 - 2010/05/14 14:26 - gbiggs
